Professional Summary

Frontend Developer with 9+ years of commercial experience, specializing in React, Next.js, and TypeScript for the past 4+ years.

Proven track record of architecting and developing modern SPA/SSR applications, corporate portals, B2B/B2C services, and e-commerce platforms. Experienced in the full software development lifecycle: from requirements analysis and architectural design to API integration, CI/CD setup, and product scaling. Adept at bridging the gap between business objectives and technical solutions through cross-functional collaboration with stakeholders, designers, and marketing teams.

Technical Skills

- Frontend: React, Next.js (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SCSS
- State Management & Data Fetching: Redux Toolkit, Zustand, TanStack Query (React Query)
- APIs & Integrations: GraphQL, GraphQL Codegen, REST API
- Backend & CMS: Node.js, NestJS, Strapi (Headless CMS), Headless WordPress
- Infrastructure & Tools: Docker, Git, GitHub Actions, CI/CD, Webpack, Vite
- Key Competencies: SPA/SSR Architecture, Core Web Vitals Optimization, Technical SEO

Professional Experience

Frontend Engineer / Technical Consultant

Jun 2022 – Present

Architected and executed full-cycle development of complex SPA/SSR web applications, e-commerce platforms, and turnkey portals. Managed infrastructure, CI/CD pipelines, and release processes.

Key Achievements

- Architected and successfully launched multiple commercial projects utilizing Next.js App Router and Server Components.
- Achieved and consistently maintained 90+ Lighthouse scores for Core Web Vitals across web properties.
- Boosted organic search traffic for a key client project by over 300% through rigorous technical SEO optimization.
- Reduced page load time from 4.2s to 1.0s by migrating legacy systems to a modern tech stack.
- Streamlined deployment processes by implementing automated CI/CD pipelines via GitHub Actions.

Notable Projects:

Crone-group.ru (Luxury Real Estate Developer):

Designed the platform architecture using Next.js (App Router) and Server Components.

Stack: React, Next.js, TypeScript, Zustand, GraphQL, GraphQL Codegen, Zod, Tailwind CSS, Headless WordPress.

Pkk-sib.ru (Major Roofing Company)

Led the end-to-end migration of the corporate portal from legacy PHP to Next.js and Strapi. Configured infrastructure and significantly improved overall site performance.

Stack: Next.js, Strapi, TanStack Query, Axios, React Hook Form, Tailwind CSS, Docker, GitHub Actions.

Fullstack / Frontend Developer

May 2021 — Jun 2022

Developed commercial web services, high-performance UI, and corporate websites.

Notable Projects:

Aeromir.su (HVAC / Climate Control Company):

Spearheaded the migration of the corporate site from monolithic WordPress to Nuxt.js and Strapi. Built a highly performant client-side application and implemented a complex scalable B2B catalog. Developed responsive interfaces using Tailwind CSS with a strict focus on Core Web Vitals.

BitCar Rent (International Car Rental Service):

Launched a scalable rental platform using WordPress, PHP, and REST API. Worked in Agile/Scrum sprints closely with stakeholders to implement complex user flows, including custom 12-parameter fleet filtering and dynamic multilingual support (RU/EN/TH).

Frontend / Fullstack Developer

Feb 2017 — May 2021

Developed corporate websites, e-commerce catalogs, and custom web services.

- Built and launched multiple commercial projects from scratch.
- Automated complex data import/export processes for e-commerce platforms.
- Performed technical SEO audits and optimizations to improve search engine rankings.
- Provided ongoing post-launch maintenance, feature development, and technical support.

Education & Certifications

- Novosibirsk State Pedagogical University | Coursework towards Bachelor's Degree
- Yandex Practicum | Certified React Developer
